PROFESSIONAL EXPERIENCE

CUBE (acquired 4CRisk.ai, Feb 2026) — **Bangalore, India**

Software Engineer — CUBE — Apr 2026 – Present

Software Developer — 4CRisk.ai — Sep 2025 – Mar 2026

AI-driven RegTech SaaS for regulatory research, change management and compliance mapping.

- **Search Portal:** Built a regulatory search portal across regulators, laws and standards with keyword and exact-phrase search, faceted and saved filters, and rule-book creation directly from search results.
- **Regulatory Change Management:** Delivered a configurable five-stage alert workflow (Scoping to Completed) with triage assignment, collaborator approvals and auto-linking of related alerts.
- **Compliance Map & Impact Assessment:** Built Sankey traceability maps with editable AI mappings and explainability, and a dashboard showing how new regulations affect rule books and obligations.
- **GRC Uploads:** Developed bulk Excel import with dynamic attribute mapping and AI-parsed policy PDF ingestion with confidence scoring and a review flow.
- **Security & delivery:** Implemented role-based and organisation-level access with tenant data segregation; own features end to end in Agile sprints with peer code reviews.

Intelizign Lifecycle Services Pvt. Ltd. — **Chennai, India**

Software Engineer — Mar 2022 – Aug 2025

- **SWIFT-VOB Workflow Platform:** Built a multi-stage approval application with dynamic forms, admin-configurable calculations, multi-document upload, ageing and full audit trail across CDMM, PCM and SSU roles.
- **Manage (Resource Management):** Designed project and resource allocation with cost and revenue analysis and Apache ECharts dashboards for leadership.
- **Delegation of Authority:** Delivered document-approval and delegation workflows with request tracking and reviewer comments.
